piece of gross sales and promotional material, and each time anybody asks you about your ebook.

Apart from selling your books assiduously on-line, there are several different strategies that may enable you to promote extra books.

An efficient approach for figuring out a worth is to send out a survey to your present customers. If these clients have already purchased an e-book from you, ask for his or her opinion when it comes to price. Do that by creating a sales web page for the new book, but don't embody a price on that page. Instead, add quite a few hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

One other strategy is to check out prices by making a variety of duplicate gross sales pages with different costs on each page. Ensure that your gross sales copy is strictly the identical on each web page, and includes your promoting-deal with sentence. Then determine for every web page the conversion ratio between visitors to your website and sales of your book. It will inform you what your optimum value is.

In the end, in the event you've written a guide that solves a downside or presents a new approach, your e book will bring in both visitors and profits.
