An efficient method for figuring out a worth is to ship out a survey to your current customers. If these prospects have already bought an e-book from you, ask for their opinion in terms of price. Do

that by making a gross sales page for the new e-book, but do not embrace a value on that page. As an alternative, add a number of links to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another strategy is to test out prices by making a variety of duplicate sales pages with different costs on each page. Be sure that your sales copy is strictly the similar on every web page, and consists of your selling-handle sentence. Then figure out for each page the conversion ratio between visitors to your site and gross sales of your book. It will inform you what your optimum value is.

In the end, should you've written a book that solves a downside or presents a new technique, your e book will usher in each site visitors and profits.
