An efficient method for figuring out a price is to send out a survey to your present customers. If these customers have already bought an e book from you, ask for their opinion in terms of price. Do that by making a gross sales web page for the new book, however do not include a value on that page. Instead, add numerous hyperlinks to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other technique is to check out prices by making a number of duplicate sales pages with totally different prices on every page. Ensure your sales copy is precisely the same on every page, and

consists of your selling-handle sentence. Then work out for every page the conversion ratio between guests to your web site and gross sales of your book. This may let you know what your optimum value is.
