An efficient method for figuring out a value is to ship out a survey to your present customers. If these clients have already purchased an e-book from you, ask for his or her opinion in terms of price. Do this by making a gross sales page for the brand new guide, but do not include a worth on that page. One other strategy is to test out costs by making a variety of duplicate gross sales pages with completely different prices on each page. Be sure your sales copy is precisely the same on each page, and contains your promoting-handle sentence. Then work out for each web page the conversion ratio between guests to your website and sales of your book. This may inform you what your optimum value is.

Finally, when you've written a book that solves a drawback or presents a new technique, your guide will usher in both site visitors and profits.
