An efficient method for determining a price is to send out a survey to your present customers. If these customers have already bought an book from you, ask for their opinion in terms of price. Do this by creating a sales page for the brand new book, but do not include a price on that page. One other strategy is to test out costs by making a variety of duplicate gross sales pages with different prices on each page. Ensure that your sales copy is strictly the same on every page, and includes your selling-deal with sentence. Then work out for each page the conversion ratio between guests to your web site and sales of your book. This may tell you what your optimum value is.
