Another strategy is to test out prices by creating a number of duplicate gross sales pages with completely different costs on every page. Make sure that your gross sales copy is exactly the identical on each web page, and includes your promoting-handle sentence. Then work out for each web page the conversion ratio between visitors to your web site and gross sales of your book. This can inform you what your optimum value is.

In the end, if you've written a book that solves a downside or presents a new approach, your book will herald each site visitors and profits.
