An efficient approach for figuring out a price is to send out a survey to your current customers. If these prospects have already bought an ebook from you, ask for their opinion when it comes to price. Do this by making a sales page for the brand new e-book, but do not embrace a price on that page.

Instead, add a lot of hyperlinks to survey questions that ask pointed questions to assist you in assigning a value to your ebook.

One other strategy is to test out prices by making a number of duplicate gross sales pages with completely different prices on every page. Be sure that your sales copy is exactly the identical on every page, and consists of your selling-handle sentence. Then work out for every page the conversion ratio between guests to your website and sales of your book. This can inform you what your optimum worth is.

Finally, for those who've written a e-book that solves a problem or presents a new approach, your e-book will bring in both traffic and profits. So be sure to write that selling-handle sentence that sums up what drawback your ebook solves and what the advantages of your 289 guide will probably be to the shoppers who buy it. After which watch your market come to you!
